User Guide

- (1) Please fully charge the batteries before powering on the gimbal for the first time.
- (2) If the power is too low, the red light will flash three times every five seconds, indicating you should charge it immediately.
- (3) When not in use, turn off the gimbal.
- (4) Unlock the three clamp before powering on the gimbal.
- (5) Landscape to install the phone.

TIPS

1. Fold and unfold

- Unfold**
- (1) Loosen the folding knob and tighten the knob after unfolding the vertical arm.
 - (2) Unlock the three axis clamp.

- Fold**
- (1) Lock the three axis clamp.
 - (2) Loosen the folding knob, and then tighten the knob after folding the vertical arm.

Unlock / Lock the clamp

Take the pan axis clamp for example.

2. Charging

Connect the USB cable to charge. The indicator light is red when charging, and green when fully charged.

3. Camera Installation

It is recommended to remove the smartphone case before installation and keep the logo VLOG pocket of the smartphone holder upward.

4. Power on / off

Unlock the three axis clamp before powering on the gimbal. Turn on the smartphone only after it is installed securely.

Power on : Long time press the function button and release it when you hear the tone. (Green light will change to blue)

Power off : Long time press the function button and release it when you hear the tone. (The red light will turn off)

5. Landscape and portrait shot switching

Double click the function button to switch modes between landscape and portrait.

Download the Feiyu ON App
